Dr. Andy **Beaulieu**
Food and Drug Administration

Petition # 99P - 4613

Dear Dr. **Beaulieu**,

I urge you to revoke Monsanto's license for the sale **and** manufacture of **rBGH**, recombinant Bovine **Growth** Hormone.

As a consumer, I am deeply concerned over Monsanto's duplicity **in** concealing evidence that the protein residues of this hormone in dairy products is harmful to human health. I am also deeply concerned that FDA, which has been in possession of this **knowledge** for a number of years, has chosen to act in a **manner** to protect the interests **of the** Monsanto Corporation rather than that of the consumer.

Thank you for dealing **with** this matter in a moral and publicly responsible manner.

Sincerely,

Prof. Louis **Blois**
